WAPA Schedules Electrical Service Interruption for Feeder 9B on Sunday

St. Croix, U.S. Virgin Islands (March 28, 2025) – The Virgin Islands Water and Power Authority (“WAPA” or the “Authority”) announces a scheduled electrical service interruption on Sunday, March 30, 2025, from 8 AM to 12 PM, affecting Feeder 9B.

This temporary outage is necessary to allow crews to safely trim trees near St. Croix Central High School that pose a risk to high-tension power lines. This proactive maintenance is essential to enhancing system reliability and preventing future outages.

The Authority thanks the community for their patience and support as it works to ensure a resilient electrical infrastructure. For more information and to stay updated, sign up for alerts directly to your phone at <https://member.everbridge.net/892807736728730/new>.

The Virgin Islands Water and Power Authority Communication’s department is committed to reaching, informing, and connecting with the youngest members of the community to the eldest, through meaningful, transparent and effective communication.

###

About WAPA: The Virgin Islands Water and Power Authority is an autonomous agency of the Virgin Islands Government which produces and distributes electricity and drinking water to residential and commercial customers in the territory. WAPA was created by the Fifth Legislature of the Virgin Islands in 1964 through Act No. 1248. Today, WAPA generates electrical power at production plants on St. Thomas and St. Croix and distributes electrical service through smart grids to customers on St. Thomas, St. Croix, St. John, Hassel Island, and Water Island. Potable water is distributed to almost 13,000 customers through water lines and standpipes. WAPA also has the responsibility of installing and maintaining streetlights.
