St. Croix Temporary Lane Closure Scheduled for Tomorrow on Hannah's Rest Rd

U.S. VIRGIN ISLANDS – The Virgin Islands Water and Power Authority (“WAPA” or “Authority”) would like to inform the public of a lane closure on the northwest lane of Hannah’s Rest Rd scheduled for tomorrow, March 20, 2024, from 7 a.m. to 4 p.m. Motorists are advised to exercise caution.

The purpose of the lane closure is to allow the Authority’s Water System Maintenance crews and contractor, VI Paving, to install the master meter as part of the Campo Rico Water Rehabilitation project.

The Authority thanks the public for its cooperation as these upgrades to the Hannah’s Rest area will enhance our services for our customers.

###

About WAPA: The Virgin Islands Water and Power Authority is an autonomous agency of the Virgin Islands Government which produces and distributes electricity and drinking water to residential and commercial customers in the territory. WAPA was created by the Fifth Legislature of the Virgin Islands in 1964 through Act No. 1248. Today, WAPA generates electrical power at production plants on St. Thomas and St. Croix and distributes electrical service through smart grids to customers on St. Thomas, St. Croix, St. John, Hassel Island, and Water Island. Potable water is distributed to almost 13,000 customers through water lines and standpipes. WAPA also has the responsibility of installing and maintaining streetlights.
