Hannah's Rest Underground Project Road Closure to Be Rescheduled

ST. CROIX, U.S. VIRGIN ISLANDS (December 4, 2025) – The Virgin Islands Water and Power Authority (WAPA) advises the public that the previously announced road closure for the Hannah's Rest undergrounding project between the Walter I.M. Hodge Pavilion and the Caribbean Centers for Boys and Girls of the Virgin Islands in Frederiksted will be rescheduled to accommodate the Crucian Christmas Festival and to encourage efficient access for residents and visitors during the celebration.

WAPA is currently coordinating with organizers and contractors to identify a new date that will minimize traffic disruptions. An updated schedule will be issued once arrangements are finalized.

The Authority appreciates the community's understanding and cooperation as we support this important cultural event.

About WAPA: The Virgin Islands Water and Power Authority is an autonomous agency of the Virgin Islands Government which produces and distributes electricity and drinking water to residential and commercial customers in the territory. WAPA was created by the Fifth Legislature of the Virgin Islands in 1964 through Act No. 1248. Today, WAPA generates electrical power at production plants on St. Thomas and St. Croix and distributes electrical service through smart grids to customers on St. Thomas, St. Croix, St. John, Hassel Island, and Water Island. Potable water is distributed to almost 13,000 customers through water lines and standpipes. WAPA also has the responsibility of installing and maintaining streetlights.
