Attn. Delores Donovan – Manager, Contract Administration

**Re: PR-01-21 Composite Pole Project Management and Design Services**

Ms. Donovan,

We are pleased to submit a proposal for the above contract.

Barkley Technologies Inc. has the necessary qualifications, experience and resources to successfully carry out all the required work scope tasks and responsibilities detailed in this RFP. We have worked on similar projects for island utilities in the Caribbean and we have gained valuable experience working for VI WAPA providing services during the first phases of the composite pole project to date.

If we are the successful candidate for this project, we can start immediately providing WAPA with the highest level of services and probability for a successful outcome.

We have included a D-U-N-S report with the proposal. For reference our number is below.  
D-U-N-S® Number: " 258789569 "

Sincerely,

Tim Bell - President
